### Position Descriptions

Various positions available at leading automotive dealerships for enthusiastic and highly motivated young people who have a desire to work in the automotive industry.

Applicants should be interested in learning new skills in the fast moving automotive industry and be able to work under supervision as part of a professional team.

The trade course associated with this industry trains students to become Automotive Technicians with the ability to interpret and diagnose data, repair faults and carry out general servicing of vehicles. Qualified Technicians also understand vehicle systems including electronics and microprocessor systems.

For further information or to arrange an interview, please call;

**Cary Hughes – SBAT Coordinator – Ph: 9825-7353**

Interested students should submit an SBAT Expression of Interest form to the Institute TVET Unit asap.
